

## **Universal Academy Family Newsletter For Paper STAAR Report Card**

Families, thank you for your partnership this year. As you know, our students took the STAAR tests earlier this spring. The STAAR is one of many ways to measure student learning. It will help schools and teachers better understand where students may have gaps from the disruptions to learning caused by the pandemic. Teachers will use STAAR along with other information to co-create learning plans with families to jumpstart learning next year.

After receiving your child's STAAR report card, you will be able to access more detailed information on [TexasAssessment.gov](https://www.texasassessment.gov). Find the unique access code on the first page of your child's STAAR report card and enter it on the Texas Assessment homepage. This will take you directly to your child's STAAR results, which will include detailed breakdowns in each subject, identifying your child's strengths as well as areas where they may need additional support. Parents have shared that seeing which questions their child got incorrect has been the most useful. You will also see easy to use resources that can be used at home over the remainder of the summer focused on the skills your child needs the most support with.

We expect STAAR scores will likely be lower for many students this year. So many of them have experienced trauma and loss in addition to the disruption in classroom instruction. You can help ease stress by letting your child know that this year, STAAR is only meant to help teachers and parents better support their learning.

The partnership between families and schools has never been more important. We encourage you to log in and learn more after you receive your child's STAAR report card. Use this information along with your own observations from the past year and your child's grades to create a learning plan with teachers in the fall to help your child succeed.

Thank you for your partnership! We wish you and your family a healthy and restful summer.
